ABSTRACT

The 26th annual report (1973) of American Indian education programs in Oklahoma is presented. The Oklahoma education program is financed and operated under a contract between the U.S. Bureau of Indian Affairs, Department of Interior, and the State Department of Education. The supervision of the program is carried out entirely by the State Department of Education as authorized by the Johnson O'Malley (JOM) Act of 1936. To qualify for JOM Special Program funds, a school must have on file in the Office of Indian Education an eligible Indian enrollment of a minimum of 10% of their total. The amount of JOM funds a local school district receives is based on the number of Indian students enrolled, financial needs of the school, and educational need of the participating Indian students. There were 130 schools participating in JOM Special Programs during the 1972-73 school year. There was a total Indian enrollment of 12,972, with an average daily attendance of 11,314; and an 88% attendance rate. Other discussions are (1) statistical reports--e.g., dropouts, financial statements, expenditures by Area Offices; and (2) 8 appendices--e.g., Indian pupil school contract. (FF)

COVER

The cover illustration represents the emblem in the center of the Oklahoma State Flag, which is an Osage Warrior"s buckskin shield, decorated with pendant eagle feathers. Across the face of the shield runs the red man's calumet, or pipe of peace, crossed with the white man's peace symbol, the olive branch. The shield implies defensive or protective warfare. The small crosses on the shield are the Indian's graphic sign for stars, which indicate lofty ideals or a purpose for high endeavor. The important symbols, however, are the calumet and the olive branch. These override the shield, the symbol of war, and represent a predominate love of peace by a united people, and the union of the Indian Territory and the Oklahoma Territory into the one great State of Oklahoma.

FORWORD

The Indian Education Program in Oklahoma is financed and operated under the provision of a contract between the U. S. Bureau of Indian Affairs, Department of The Interior, and the State Department of Education. The supervision of the program is carried out entirely by the State Department of Education as authorized by the Johnson-O'Malley Act of 1936. Prior to 1947, the program was administered by the Indian Bureau.

This Twenty-Sixth Annual Report of Indian Education in Oklahoma has been prepared by the Division of Indian Education to comply with State Contract No. GOOC14201887.

We wish to extend our appreciation to Mr. Jack Ellison, Acting Area Director of the Muskogee Area; to Mr. Sidney Carney, Area Director of the Anadarko Area; and to their staff members for their cooperation and assistance in carrying out the program of Indian Education.

Sincerely,

Dr. Leslie Fisher, Superintendent
State Department of Education

NARRATIVE

The Indian Division of the State Department of Education completed the 1972-73 school year with the most significant advancements, according to the records, since the inception of the Johnson-O'Malley Program in the State of Oklahoma.

With the 1971-72 phase-out of expenditures for free or reduced cost lunches and Basic Support payments to schools, this was the first year in the history of Indian Education that our full attention and total expenditures, other than Administration, were freed to direct toward our prime target which is meeting the educational needs of our Indian students attending the public schools.

In order to best meet the educational needs of our Indian students, our 1972-73 Plan of Operation was based on development and implementation of Special Programs in schools qualifying for Johnson-O'Malley funding.

To qualify for Johnson-O'Malley Special Program funds, a school must have an Indian enrollment or file in the office of Indian Education reflecting a minimum of 10% of their total enrollment to be eligible Indian students. An eligible Indian student is one whose name appears on a given enrollment submitted by the school and has been verified by our office as one-fourth or more degree Indian, based on the information requested on the enrollment. Schools with less than 10% Indian

enrollment may qualify by showing an exceptional need in a given area.

After having established qualifications by the enrollment of eligible Indian students, the schools were then required to have a Community Indian Education Committee, of at least five members, duly elected by the Indian people of each school district. The purpose of this Committee is to insure Indian parental involvement in determining the educational needs of their children. The primary responsibility of the Committee is to assist the school of their respective district in defining the needs of Indian students, developing projects to be funded by Johnson-O'Malley, and to concur with the projects submitted to the Indian Division of the State Department of Education.

Another first in the history of the Indian Education Division in the 1972-73 school year was a Special allocation in the amount of $263,746.00 for Parental Cost. This allocation involved 12,226 eligible Indian students. The allocation was prorated to the Johnson-O'Malley schools based on the number of eligible Indian students enrolled. It was the responsibility of the Community Indian Education Committees to determine the eligible Parental Cost items for which these funds were expended.

The amount of Johnson-O'Malley funds a local school district receives is based on the number of eligible Indian students enrolled, financial need of the school, and educational needs of the participating Indian students.

In the 1972-73 school year the most intense series of activities of the Administration of Indian Education was

involvement in meetings to help to bridge the communication gap between the Community Indian Education Committees and Superintendents or Principals of the Johnson-O'Malley schools. Regional meetings were held across the State for the purpose of defining the role and responsibilities of the Committee members and the school administrators in jointly developing Special Programs. A one-week workshop was conducted at Southeastern State College for the chairmen of the committees, or a representative, and school administrators. This workshop was funded through Indian Education and the Bureau of Indian Affairs (Muskogee Area Office). Thirty-four (34) committee chairmen and twenty-four (24) school administrators were in attendance. It was determined in this workshop that a better understanding and cooperation between committees and administrators had developed. The input and Program support of the Indian committees has opened the door of the new educational horizon for Indian students. To the Division of Indian Education, this determination is an educational breakthrough in meeting the needs of the Indian students. To the Johnson-O'Malley Program this determination will surely be an impact on future allocations to the State of Oklahoma.

Another Johnson-O'Malley funding during this year was a Teacher Aide workshop held at and conducted by East Central State College. The number of aides attending this two-week seminar was 172.

One of the most defined concentrated areas of the Indian Education Division during the 1972-73 operational transition has been that of Accountability. In qualifying this area

of responsibility, the Indian Education Administration was in constant contact with Indian Education Coordinators who reside in areas with a high concentration of Indian students across the State of Oklahoma. Since the Coordinators work directly with the administrators in Johnson-O'Malley schools, work personally with Indian students, and make numerous visits in the homes of the Indian patrons they are in an unexcelled position to evaluate the needs assessment of a given school, evaluate goals and objectives, and for monitoring and evaluating each Project Title of a Johnson-O'Malley Special Program in their respective areas.

There were 130 schools participating in Johnson-O'Malley Special Programs during the 1972-73 school year. There was a total Indian enrollment of 12,972 with an average daily attendance (ADA) of 11,314; and an attendance per cent of 88. This compares to an 82 per cent attendance for all pupils attending Johnson-O'Malley schools. The number of Indian graduates from Johnson-O'Malley high schools were 586 and 1002 graduated from the eighth grade.

Two county cooperative Programs were also funded by the Johnson-O'Malley Program. A Speech Therapy program in Cherokee County and an Art Program in Comanche County.

Graduating seniors were counseled by a representative of the Indian Education Division and informed and encouraged to take advantage of the educational opportunities available through the Bureau of Indian Affairs and other sources for post-high school training. Indian seniors in schools not

participating in Johnson-O'Malley are also provided this same service. This counseling service has been highly successful in increasing the number of Indians pursuing post-high school courses and guiding them into fields in which they are most likely to be successful.

For an exceptionally rewarding Johnson-O'Malley school year, the Division of Indian Education extends its sincere appreciation for the unlimited cooperation of the Bureau of Indian Affairs officials in the Anadarko and Muskogee Area Offices, the office of the State Superintendent of Public Instruction, other Agencies concerned with the educational opportunities for Indians, and the Indian people throughout the State.

Special recognition is extended by the Division of Indian Education to the Johnson-O'Malley school administrators and their entire personnel for the dedication of their efforts in effecting their Programs to meet the educational needs of the Indian students, their cooperation with the Community Indian Education Committees, and their courtesies to the representatives of this Division.

OKLAHOMA STATE PLAN

(For Administration of Johnson-O'Malley Funds)

1972-73

PURPOSE:

The purpose of this plan is to: outline the procedure to follow in administering Johnson-O'Malley funds received by the State of Oklahoma, to define the Indian Parental participation role in the development of local education programs and how the Community Indian Education Committee works cooperatively with the local school in developing and carrying out a local program.

PROVISION:

Johnson-O'Malley funds may be requested by the State for Special Programs Affecting Indian Students and /or Parental Costs (kindergarten through twelfth grade) and Administration.

HOW A SCHOOL QUALIFIES FOR JOHNSON-O'MALLEY PROGRAM:

To qualify for Johnson-O'Malley funds from the State, the local school district must meet the following requirements:

(a) A minimum of 10% of the total school enrollment must be eligible Indian students. Schools with less than 10% Indian enrollment may qualify for Johnson-O'Malley funds by showing an exceptional need in a given area based on the availability of funds.

(b) Johnson-O'Malley funds shall supplement and not supplant local and State funds.

(c) The amount of Johnson-O'Malley funds a school district receives is based on the number of eligible Indian students enrolled, financial need of the school district and improving educational need of the participants.

(d) Eligible Indian students shall include only those who are verified as being one-fourth (¼) or more degree Indian blood.

(e) To insure maximum local effort, the school district must levy the full 35 mills.

(f) The local school district must be eligible for and receive State Aid.

(g) The request for Johnson-O'Malley funds must be justified on the financial need after all sources of revenue (local, state and federal) are considered, including P.L. 874 and P.L. 92-318.

PROGRAM DEVELOPMENT AND ROLE OF THE SCHOOL ADMINISTRATOR:

To best meet specific educational needs of Indian students, it shall be the responsibility of the local school administrator and the Community Indian Education Committee to jointly develop special programs. They must collect base line data, make accurate needs assessment, set up sequential priorities of educational deficiencies and submit proposed project(s) and budgetary breakdowns to the State by May 15th annually.

(a) The local school administrator will schedule a meeting of parents and/or guardians of Indian students attending said school. The parents will elect a minimum of five members on the first Tuesday in April of each year.

workshops, inservice training for staff and Community Indian Education Committee members, arts & crafts, special teachers in specialized areas, supplies & equipment and special parental cost.

(g) In implementing special programs, Johnson-O'Malley funds shall not be used to foster segregation.

ROLE AND FUNCTION OF THE COMMUNITY INDIAN EDUCATION COMMITTEE:

(a) All members of the Community Indian Education Committee must be residents of the local school district's transportation area. The majority of the committee shall be composed of Indian parents. School employees and board members are not eligible to serve on the committee.

(b) By a majority vote of the district Community Indian Education Committee, they shall have the authority to organize and govern themselves in respect to the number of meetings, filling and declaring vacancies, electing officers and conducting all business that is in their area of responsibility. The committee has no hiring or firing authority; they are limited to making recommendations.

(c) The primary responsibility of the Community Indian Education Committee shall be to assist in defining the needs of Indian students, developing projects to be funded by Johnson-O'Malley and to concur in the projects submitted to the Indian Division of the State Department of Education. They shall assist in the evaluation of the educational projects. It shall be the responsibility of the Community Indian Education Committee to determine the eligible parental cost items requested in the projects and the recipients.

ROLE AND FUNCTION OF THE INDIAN DIVISION OF THE STATE DEPARTMENT OF EDUCATION AND BUREAU OF INDIAN AFFAIRS:

The Indian Division of the State Department of Education shall submit to the Bureau of Indian Affairs a budget estimate on or before March 15th each year for the second succeeding fiscal year. The budget request shall be accompanied by justifications based on the best available information from schools working in cooperation with local Community Indian Education committees. On or before March 15th, an annual review of the proposed Johnson-O'Malley Program and budget request shall be made by State, Elected Tribal Leaders, and Bureau officials. Based on this review and visitations to schools, a preliminary State Johnson-O'Malley contract is negotiated between the Bureau of Indian Affairs and the State Department of Education to provide needed financial support within funds available to the Bureau.

An annual report of the prior school year program shall be submitted on or before October 15th each year and shall contain narrative and statistical information regarding the Johnson-O'Malley program in the previous school year.

It is mutually agreed by the Indian Division of the State Department of Education and the Bureau of Indian Affairs officials that information indicate breakdowns by counties and local school districts.

(a) Normally, administration costs should not exceed 5% of the total budget.

(b) The State Department of Education agrees to provide the following costs of services for Johnson-O'Malley Indian education programs in Oklahoma: (1) Rent, (2) Utilities, (3) Postage and (4) State personnel fees.

(c) Any unobligated funds received from the Bureau of Indian Affairs for any fiscal year shall be offset against the Johnson-O'Malley budget for the ensuing fiscal year.

(d) Periodic and annual visitations to Johnson-O'Malley schools are to be made by State Johnson-O'Malley personnel. When it is the desire of Bureau officials to visit these schools for the purpose of observation, they may do so under "Access to Facilities" clause of the State Contract and it shall be a joint venture with Johnson-O'Malley personnel. Visits are to be made to the extent possible within budget and time limitations. Johnson-O'Malley personnel may visit schools enrolling Indian students that are not supported by Johnson-O'Malley funds for the purpose of informing school administrators that assistance may be available to educate their Indian student population if they qualify. Program deficiencies that exist which cannot be fully funded locally or through other sources will form the basis for future Johnson-O'Malley budgetary requests.

(e) The Bureau of Indian Affairs will be responsible for an annual evaluation of programs in their administrative area. They will make copies available to the school, Community Indian Education Committee and the Indian Division of the State Department of Education.

This Oklahoms State Plan is in complete agreement with the Johnson-O'Malley regulations and is not in conflict with Oklahoma State School Laws.
